Suggestions for improvement in curriculum design and development

17 responses

Number of points should be reduced and each point should be discussed in deep

More skill based learning expeted

Syllabus should be useful in accordance with subject knowledge with today's society problems

Syllabus should be inclusive of advance biochemical experiments and molecular, genetics studies.

No Suggestions

पाठ्यक्रम रोजगार परख हो, व्यवहार में उपयुक्त हो.

Use practical work on field

Add some different courses such as those related to artificial intelligence, machine learning and other post graduation courses.

Need to be little more Practical and Skill orientated..
